

THREE BOLD BURGLARIES

Unknown Negro Enters Three Houses in Broad Daylight.

Buried on Yesterday—October Court Convened—Socialist to Speak—Briefs.

Manchester Bureau, Times-Dispatch, No. 1111 Hull Street.

An unknown negro, who seems to be a man of marked ability in his chosen profession, was yesterday the perpetrator of three bold burglaries. He made his first call at 10 o'clock in the morning, entering Crittall Hall, at Ceresley and Old Dominion streets, in Newtown. Here he stole a watch and \$2. At 12 o'clock he entered a negro house on Third street, where he came into possession of a shot gun, and also pried everything to pieces in his search for money and valuables. His third and last call was made at the house of Willie Boyd, colored, on Sixth street, where he got a suit of clothes and made everything topsy-turvy in his quest. The money, however, happened to be under the mattress, where it had been hidden by the good wife of the house.

All of the occupants of the houses entered were away at the time of the robberies, but the man was seen by neighbors, all of whose descriptions of him tally with each other.

Ruth Evelyn, infant daughter of Mr. and Mrs. W. T. Norris, died at 2 o'clock Sunday morning in the home of her parents, 508 Hull street.

The funeral took place yesterday afternoon at 3 o'clock from Fifth Street Methodist church. The services were conducted by Rev. A. B. Sharp, assisted by Rev. Dr. Criddle. Interment was in Maple Cemetery.

DON'T WANT HOTEL BEAUTY LESSENED

The Board of Fire Commissioners are on the move in enforcing the law in regard to placing fire-escapes, and last night a lengthy meeting was held to consider an appeal from Mrs. A. D. Atkinson, of the Richmond Hotel, who desired to be relieved from placing fire-escapes on the new fire-proof hotel at Ninth and Grace streets.

Mrs. Atkinson desires to place the escapes in the rear or in some other location, fearing that they will detract from the appearance of the hotel.

The board decided to visit and inspect this hotel building again this evening at 6 o'clock, and see if they can compel Mrs. Atkinson to place the escapes in the rear or in some other location, fearing that they will detract from the appearance of the hotel.

TO ENGAGE AN ENGINEER

Colonel Cutshaw's Force to be Increased Also by Stenographer.

MAY HAVE STEAM LAUNDRY

Proposition Made to Have One at the City Almshouse.

Several municipal committee meetings were held in the City Hall last night, but most of the business disposed of was of a routine nature.

The Committee on Streets met at 8 o'clock and ordered the grading and paving of certain sidewalks and streets authorized by resolutions of the City Council. The several ward committees made reports of needed repair work, and the City Engineer was instructed to have the work done.

The committee decided to recommend that the Engineer's office be increased by one assistant engineer at a salary of \$1,000 per annum, and one stenographer and typewriter at a salary of \$800 per annum.

This "Poor Gas."

The Committee on Light met at 8 o'clock and heard a report from Superintendent W. P. Knowl concerning the complaints as to the quality of gas being furnished.

Mr. Knowl said that the gas being manufactured was as good as any that was being made in the large cities and that the complaints were mostly groundless. He explained that the lack of storage capacity had caused the demand for a great deal of the gas to be sent to the gas meter as fast as manufactured into the service pipes from the present holder, thereby not giving sufficient time for the gas to reach that state of quality it should have before leaving the holder.

Sprinkling the Streets.

The Committee on Health met at 8 o'clock and referred the question of sprinkling the streets of the city generally to a subcommittee consisting of Messrs. Ferguson, Cottrill and Cat's for report.

The president of the Board of Health was instructed to secure permission from the Water Department for the use of water to flush the city sewers as a health measure.

The committee decided to recommend to the Council that the salary of the clerk of the Board of Health be increased to \$1,000 per annum.

May Have Steam Laundry.

The Committee on Relief of the Poor met at 8 o'clock and appointed a subcommittee, consisting of Messrs. Dabney, Grinnell and Dickerson, to look into the feasibility of installing a steam laundry plant at the City Almshouse.

OPERATE ON FULCHER.

Complication Has Arisen Which Is Exceedingly Dangerous.

While L. L. Fulcher's condition generally is reported as being greatly better than any time since he was shot three weeks ago, and his temperature normal, a complication has arisen that will necessitate an operation almost immediately. He is now suffering with traumatic aneurism of the subclavian artery, or otherwise a formation or clot of blood in the tissues of the shoulder. This is likely to cause his death at any time unless an operation is performed, and his physician has deemed this necessary.

CHOKED AND SUFFOCATED

(Special to The Times-Dispatch.) NORFOLK, VA., October 17.—Edward Freeman, special detective of the Norfolk and Western Railway, choked while eating last night, and in coughing ruptured a blood-vessel in his throat and suffocated.

He was a brother of Police Sergeant M. M. Freeman, and had been unable to attend his work for some time on account of ill health.
